

## ROKI Replacement capsule filter 29

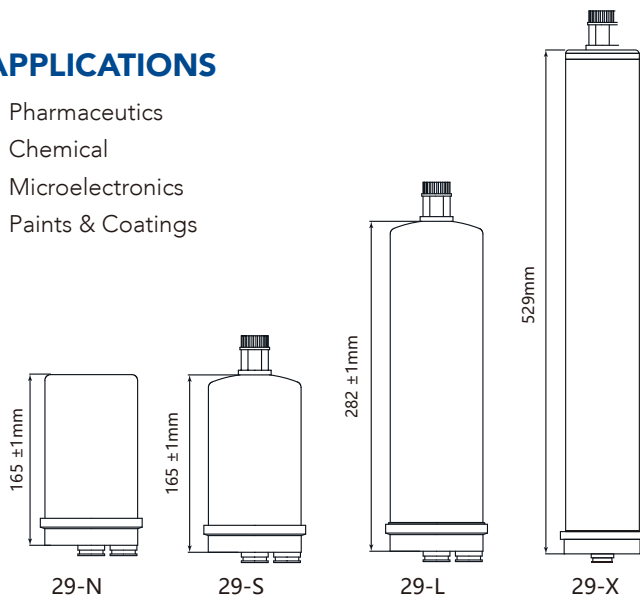

Capsule filter 29 is equivalent with ROKI capsule filter. No need to clean the filter housing after replacing, which greatly reduces the cost of cleaning and waste water treatment, also avoids contacting with feed liquid directly, particularly suitable for toxic and harmful liquid filtration.

### BENEFITS

- Safe and friendly design
- Low material wastage compact structure design
- Easy installation and operation

### APPLICATIONS

- Pharmaceuticals
- Chemical
- Microelectronics
- Paints & Coatings

Media  
PP

Cage/Connection  
PP

Max Operating Temperature  
60°C

Max Operating DP  
4 Bar @ 21°C

### ORDERING CODE

Example : 29S-50-E

	Removal Rating	Seal Material
29N	50 = 50µm	E = EPDM
29S	75 = 75µm	V = Viton
29L	100 = 100µm	F = E-FKM
29X	150 = 150µm
